PROJECTS

Portfolio - HTML, CSS & JS([github](#))

Alexa - Python ([github](#))

Build your own Alexa, make her do anything, yeah anything. She is all yours.

Open Chrome Webpage - Python using Selenium ([github](#))

Automation testing is necessary to test these features and ensure the UI works well. For testers worldwide, Selenium is the first choice for executing automated tests.

Menu Card design - HTML & CSS ([github](#))

A Responsive web design developed using the tags, elements, attributes and styles of HTML and CSS.
